***Detailed Action***

This is the first Office Action corresponding to original filing. The application contains 23 claims.

***Drawings***

The drawings have been accepted by the examiner.

***Information Disclosure Statement***

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper."

Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17-23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by European Patent No 657,604. All recited claims are disclosed by the European Patent; note sleeve (2) and lower spike (1) defined by blades (3) and the double dome (4 and 11).

### ***Allowable Subject Matter***

Claims 1-16 are considered allowed over the art of record.

The following is a statement of reasons for the indication of allowable subject matter: none of the art of record discloses an adjustable post support having a support table inside the sleeve.

### **Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Krinner (6,308,926), Stier (6,039,298), Speece (5,884,874 and 5,927,677), West (5,404,682), Manning (3,204,898) and Rongau (2,806,289) show devices of interest.
